THE SERIOUS BUSINESS OF INTERIOR DESIGN

The inside of the Mitsubishi Lancer leaves very little to be desired: a specious cabin, elegant, minimalist styling, knobs and dials where you'd expect them to be, and, of course, an overall atmosphere of calm and relaxation. All the finer points of detail are a personal thing, so we've left them up to you. Do you like carbon? Or perhaps a beautiful alloy and leather shift knob? Take a look at the accessories we have to offer and let the interior decorator in you out.

A LUXURY AUTOMOBILE

The Mitsubishi Lancer Sportback and it’s sedan version are luxury automobiles and as such, you expect them to meet the highest standards of comfort and ergonomics and reflect the latest in automotive fashion and trends. And they do. Versatile seating arrangements, clever storage and the use of the finest materials is testimony to that. Whether your purpose is business or pleasure, any car in the Lancer range will get you there in comfort and in style. As remarked before, however, we are all different and to do further justice to that fact, Mitsubishi Motors have developed several practical extras so that you can tailor your comfort to your individual taste, style and needs. Floor mats, sunblinds, a lighter – they are as simple as they are effective. They’ve all been tailor-made for the Lancer and meet the highest standards of quality.

WINNING SAFETY & PROTECTION

Mitsubishi Motors builds winners. And to win, as they say in the trade, you need first to finish. Now there are many ingredients that go into finishing first: speed, reliability and yes, the driving prowess of the wo/man behind the wheel. The key factor that's often overlooked, however, and that's just as important, is safety. For this reason, each component of each Mitsubishi automobile has safety at the top of its list of design specifications. Depending on your needs, you may like to consider some of the extra safety accessories we've developed. Like a range of child safety seats for your younger passengers, rear-parking assistance, or an alarm system. Maximum safety and protection all round, that's what building a winner is all about.
